

Mackey::inverses

```
graph LR; A[Mackey::inverses] --> B[Mackey::normalize]
```

A diagram showing a call to the `Mackey::normalize` function from the `Mackey::inverses` function. The `Mackey::inverses` box is shaded gray, and the `Mackey::normalize` box is white. A blue arrow points from the right side of the `Mackey::inverses` box to the left side of the `Mackey::normalize` box.

Mackey::normalize
